Office of Legislative Counsel

Thursday - 29 May 1952

- - - - -

2. Miss Niles, of Senator Humphrey's office, called to state that her father, Mr. Henry Edward Niles, Vice President of the Baltimore Life Insurance Company of Baltimore, Maryland, had been informed by the Pix Company that a Government agency was interested in films on Poland, and that they would be happy to sell Mr. Niles' films at a 35% commission. I have made arrangements to have somebody contact Mr. Niles directly in Baltimore.

3. Mr. Warner and I secured the approved of DD/P to present an amendment to the Immigration Act specifically referring to CIA, Security having also concurred.

4. Mr. Borden, Executive Director of the staff of the Joint Atomic Energy Committee, called to state that the meeting at which

the DCI was to appear had been postponed to Wednesday, 4 June, at 1430. As Mr. Dulles will doubtless attend this meeting, I have briefed him on the background of the Committee and the fact that they may wish to explore background information on the CIA Semi-Annual report to the Committee as well as the subject of the meeting, which is exchange of atomic information.
